Applications
Orenco’s AdvanTex® AX20 Treatment System* is an innovative technology for onsite treatment of residential wastewater. The heart of the System is the AdvanTex Filter, a sturdy, watertight fiberglass basin filled with an engineered textile material. This lightweight, highly absorbent textile material treats a tremendous amount of wastewater in a small space. AX20 Treatment Systems are ideal for:

- Small sites
- System upgrades and repairs
- New construction
- Poor soils
- Nitrogen reduction
- Price-sensitive markets
- Pretreatment

For sizing, see “AdvanTex® Design Criteria,” NDA-ATX-2.

Features/Specifications
To specify this product, require the following:

- Wastewater treatment to better than secondary treatment standards
- Consistent treatment, even during peak flows
- Timer operation for flow monitoring, flow modulation, and surge control
- Fixed film textile media (a polyester plastic), operated in an unsaturated condition
- Consistent media quality
- Low maintenance beyond annual servicing
- Low energy consumption (under $1.45-4.86/month power cost at national average electric rate of $0.10/kWh)
- Complete pre-manufactured package, ready-to-install
- Watertight construction, corrosion-proof materials, tamper-proof lid bolts
- Anti-flotation flanges
- Foam-core lid provides insulation value of R-6 (RSI-1.1)
- Quiet operation

Standard Models
AX20, AX20N
